

Find Out How You Can Try The Contour Light No Charge

Safely Melt Your Patients Fat Like Never Before with the Most Powerful System Possible

The Contour Light is the most powerful non-invasive & safe, body contouring system on the market today. It delivers German-Made Computerized Micro Chips in the near infrared wavelengths to safely and naturally slim, shape and tone the body and face.

Non-invasive Light Therapy

Contour Light is the latest advancement in light emitting microchip technology and is exceptionally effective on all body areas due to its unique pad design. The large, soft flexible pads will contour to the shape of the body, providing a direct contact of the light source to the skin; the photonic way energy. The wavelengths of red and near-infrared are emitted by the pads of the Contour Light system, combining the beneficial aspects of both frequencies to attain optimal results.

Contour Light has a higher light retention

More light is retained in the tissue due to the *patent-protected reflective coating on the Contour light pads*. ***No other device or system has this feature that delivers and retains this energy better.***

Contour Light has more power

With over 350,400mW of power, our device has more power than any other device on the market!

Learn How You Can Easily Use the Contour Light's Effortless, Turn Key Weight loss & Anti Aging Technology

The Contour Light system is made up of nearly 4500 powerful German-Made computerized microchips. The unit includes 4 large, sturdy flexible pads and 2 smaller pads that can easily cover all major fat regions at once.

Any Trained Staff Member Can Administer the Treatment

Increase Your Income

If you are not currently offering this type of service in your business, you are missing out on a huge opportunity. You will be astounded by the number of new patients this can draw to your business. And your current patients will rush to sign up for this service.

Try It For Free
